## ***STUDENTS'*** ***UNION***

Past student councils have, no doubt, considered their jobs to be those with the most tasks and demands to complete to date. This year's council of 1968-69 has been no exception. I can only hope our work has satisfied the students of Bonnie Doon.

I would like to extend my thanks and those of the Student Council to the hundreds of students who contributed their time to make a success of the past school term. They have made a significant contribution to all of us. Our work would not have been successful without you. My best wishes go with all of you in the coming years.
